Swansea University

## WHAT WE DID...

"As we are keen to give students a flavour of the experience of Welsh-medium accommodation, we did a Welsh-medium video with the Union's Welsh Language Officer 18-19 talking about her accommodation experiences in order to promote the specific advertising in the field. Alongside this, we were keen to extend the Welsh language to everyone in the context of the University so the best (and most effective) way we thought was to create a video: 'Welsh Language: A survival Guide'.

We were aware that there were many legal documents of accommodation that needed to be translated so all of these were sent to our translators who were brilliant at translating them for our website. See our document store now which is bilingual: <https://www.swansea.ac.uk/cy/llety/storfa-ddogfennau/>

We are very proud to have a fully bilingual website, with unique features added for Welsh speakers on the Welsh language pages. We are also grateful to the Policy Office for their guidance with the specific queries that they answered during this time."

## Accommodation Services
